Driver's License L

I am a highly motivated and dedicated ICT graduate with a strong foundation in application development, completed an Advanced Diploma in ICT Application Development. I'm proficient in CSS, HTML, JavaScript, VB.NET, Python, Java, SQL, Oracle APEX, and Flutter (Dart), with hands-on experience building dynamic web and mobile applications. Proficient in API integration, automation, Agile development, and applying solid software engineering principles throughout the SDLC to deliver scalable, user-centric solutions. Strong understanding of OOP, database management, and database concurrency control, supported by real academic and personal project experience. An AI enthusiast passionate about leveraging modern technologies to solve real-world problems and contribute to innovative, forward-thinking development teams

Skills / Strengths

- Adaptability
- Time Management
- Critical Thinking
- Team Player
- Verbal Communication
- HTML, CSS, JavaScript
- SQL Server, Oracle Apex, MySQL
- JAVA, Python, VB.NET, Flutter, API Integration
- MS Office 365 Suite, Notion, AI Tools

Experience

2025-04-01 - 2025-11-30

Information Systems 3 Tutor
Walter Sisulu University

- *Served as an Information Systems 3 Tutor, effectively simplifying and teaching complex database management concepts. Successfully guided students through advanced topics such as transaction management, concurrency control, normalization, and SQL queries, ensuring clear understanding and practical application of each concept*

Education

Year of completion(2024)

Design, develop, and test software applications while applying various programming languages and software development methodologies. Manage and analyze data using database management systems and effectively troubleshoot and resolve ICT-related issues. Collaborate efficiently within teams to support and manage ICT projects**.**

(NQF Level 6), Walter Sisulu University
East London

- **Diploma in ICT Application Development**

- Technical Programming
- Development Software
- Computer Architecture
- Human Computer Interaction
- Information Systems

Year of completion(2025)

Academic Projects: Student Management System, Crime Alert App, Job Hunt App, Restaurant App, Agric Crop Advisor

Academic Exposure: Advanced Programming Techniques, Mobile Application Development, Web Application Development, Software Engineering &

(NQF Level 7), Walter Sisulu University

East London

- **Advanced Diploma in ICT Application Development**

- Software Engineering
- Application Technology
- Advanced Development Software
- Database Systems
- Information Technology Management
- Functional Management

Project Management, Cloud Computing & Deployment, Database Design & Optimization

- Research Methodologies
- Research Project

Hackathon Participant

2025-09-23 – 2025 -09-24

Adapt IT TransformED Africa 2025 Hackathon

- Served as the System Architect, responsible for designing the overall system structure, defining key components, data flow, integration points, and ensuring the solution was scalable, secure, and technically feasible.

2025-11-25 – 2025-

East London IDZ Innovation Challenge Participant

- *Served as a Software Engineer, where I developed a full-stack, working prototype of an AI-powered SMME application. I was responsible for both the technical implementation across the front-end and back-end, as well as leading the project management function coordinating the team, managing timelines, and ensuring successful delivery of the solution within a fast-paced, collaborative environment.*
